

3/4 in. Dr. Shallow Impact Skt Set (2-1/16-2-1/2 in.) Cr-Mo

PRODUCTS > SOCKETS AND RATCHETS > SOCKETS - IMPACT SETS

From trucks and tractors to heavy equipment and large machinery, big service and repair jobs need the TEKTON 3/4 in. Drive Shallow Impact Socket Set. Made for use with impact wrenches, these premium chrome molybdenum sockets deliver superior performance. High-torque, 6-point design contacts and grips the stronger flat sides of fastener head, not the weaker corners, to prevent stripping or round-off under extreme stress. Extra large, high-contrast size markings are permanently laser etched onto each socket, making size selection quick and easy, even in low light. A durable black phosphate finish protects from rust and corrosion. Rugged storage case keeps everything organized and easy to carry.

Specifications:

- Designed for use with impact wrenches
- High-torque, 6-point sockets grip flat sides of fasteners, not corners, preventing round-off
- High-contrast permanent laser etched size markings are easy to read, even in low light
- Premium chrome molybdenum steel construction with corrosion-resistant black phosphate finish
- Meets or exceeds ANSI performance standards
