

Extreme Torque

ET Series Air/Hydraulic Bottle Jacks

- Bottle jacks feature robotically welded seams to prevent leaks and ensure long product life
- Pump piston and ram are chrome-plated to resist corrosion
- Extension screws give added height where needed
- Built in bypass valve prevents overloads and protects against over extension of ram
- High-strength return springs for fast retraction times

ETCET-20TAJ

20-Ton Air/Hydraulic Bottle Jack

Lifting Capacity: 20 tons
Minimum Height: 9.65(in)
Maximum Height: 18.70 (in)
Net Weight: 35.27 lbs.
Working Pressure (PSI): 101-145

ETCET-20TAJL

20-Ton Air/Hydraulic Bottle Jack Low Profile

Lifting Capacity: 20 tons
Minimum Height: 5.83 (in)
Maximum Height: 19.48 (in)
Net Weight: 20.94 lbs.
Working Pressure (PSI): 101-145
